A Long Way Down

You can stand there like a fire engine
Until he brings you down
You're never gonna learn, until he shows you how-
That woman may be an insult,
But you can't handle her that way
I got tired of the cure
Are you very sure?
While you sip your wine and eat your cheese
And crackers in your ritzy little way-
Have a good mamaf'in' day-
But you know, you know the difference
On either side of town
If you have the power to hurt someone,
It's a long way down
Such a long way down
