My sweetheart wears a perfect junior 4
She makes me feel alright when I blow my top
She tries to understand that at this stage of life, I need
so much more
The day she graduated highschool, tickets were
scarce, I know-
But just for the sake of her hometown friends, they had
a little
Party... and then in a month or two, she had another
party!
... And she did issue me an invitation on the phone...
But niether of us followed through...
This was a party for Samantha and her friends, not
me... you know!
Now Samantha, I know you had so much to do to pack-
But honey, I'm gonna miss you so...
