You've got a dear and gentle lady with you,  
Who will not tell you what to do,  
Hold her close to your heart,  
'Cause you don't know when she will start to die-

Chorus:

Because-

Time decays even the best of us  
Yes time will age, it is the test of us,  
Yes, time will change all of the rest of us  
(whoa-oh-whoa-oh)  
We're all gonna die someday.

You've got a kind, sweet lady to love,  
So you need a man like a hand fits a glove,  
But don't lose respect for her, mama,  
Because once she's gone,  
You can't ressurect her love-

So won't you shower her with all of your care-  
Because, you know, she won't always  
Be here,  
Never put her down,  
Because she won't always be around to love-
