The world lies in darkness lost in their sin
And they don't even know the danger they're in
We who are called to that glorious fight
Must shine like a beacon of love... in the night.

Chorus:

We will carry the torch we will lift up the flame
We will march through the darkness with the light of his
name
Until the glory of God is seen by the world
We will carry the torch of the Lord.

There's no need for failure, there's no need for fear
For the Lord goes before us to make our path clear
Let that glorious flame, let that glorious light
Let it shine out through you and shine... in the night.

Chorus:

We will carry the torch we will lift up the flame
We will march through the darkness with the light of his
name
Until the glory of God is seen by the world
We will carry the torch of the Lord.

The torch is our Saviour the hope for all men
And as we lift him up he will draw all men to him.

Chorus:

We will carry the torch we will lift up the flame
We will march through the darkness with the light of his
name
Until the glory of God is seen by the world
We will carry the torch of the Lord.

We will carry the torch we will lift up the flame
We will march through the darkness with the light of his
name
Until the glory of God is seen by the world
We will carry the torch of the Lord.

We will carry the torch of the Lord
We will carry the torch

We will carry the torch
We will carry the torch of the Lord
Of the Lord!...
