Nothing could be bring me closer  
Nothing could be bring me near  
Where is the road I follow?  
To leave, leave

It's under, under, under my feet  
The sea spread out there before me  
Where do I go where the land touches the sea  
There is my trust in what I believe

(chorus)  
That's what keeps me,  
That's what keeps me,  
That's what keeps me down,  
To leave it, leave it,  
Leave it all behind

Shifting the dream  
Nothing could bring me further from my old friend time  
Shifting the dream  
It's charging the scene  
I know where I marked the signs  
I Suffer the dreams of a world gone mad  
I like it like that and I know it

I know it well, ugly and sweet  
That temper madness with an even extreme

That's what keeps me  
That's what keeps me  
That's what keeps me down  
I say that I'm a bantam lightweight  
I say that I'm a phantom airplane  
That never left the ground

(repeat chorus)

Lift me, lift me,  
I attain my dream  
I lost myself, I lost the  
Heartache calling me

I lost myself in sorrow  
I lost myself in pain  
I lost myself in clarity,  
Memory, leave, leave

(repeat chorus 2x)

Lift my hands, my eyes are still  
I walk into the scene  
Lift myself in a different place  
Just Leavin'

I longed for this to take me,  
I longed for my release  
I waited for the callin'  
To leave, leave

Leave, leave  
Leavin', leavin'  
Leavin', leave
