(Berry/Buck/Mills/Stipe/N. Bogan)

Long gone, intuition to assume are gone when we try  
Dream of a living jungle in my way back home when we  
die

(chorus)

West of the fields, west of the fields, west of the fields,  
west of the fields

Long gone, long gone, long gone, long gone. West of  
the fields

Dreams of Elysian, to assume are gone when we try  
Tell now what is dreaming  
When we try to listen with your eyes oversimplify

(repeat chorus)

The animals, how strange. Try, try to stick it in  
The animals, how strange. Try, try to stick it in

Dreams of Elysian, to assume are gone when we try  
Tell now what is dreaming when we try  
Listen through your eyes when we die

(repeat chorus 2x)
