It's what I want, who we are
All has been tried, who we are
You cannot wear that in this heat, it's all wrong
You try to put that on your sleeve, it's all wrong, all
wrong

He's got a pretty persuasion
She's got pretty persuasion
Goddamn, your confusion
He's got pretty persuasion

It's what I want, who we are
All has been tried, who we are
You cannot wear that in this heat, all wrong
Try to put that on my sleeve, it's all wrong, all wrong

He's got a pretty persuasion
She's got pretty persuasion
Goddamn, your confusion
He's got pretty persuade

In the light I saw quite a scene

It's what I want, who we are
All has been tried, who we are
We cannot wear that in this heat, it's all wrong
Try to put that on my sleeve, it's all wrong, all wrong

He's got a pretty persuasion
She's got pretty persuasion
Goddamn, your confusion
He's got pretty persuade
