i locked myself inside this room
'cause i cannot stand the things that people do
so, i kept myself inside this place
the world has said enough i could not face

Chorus:

so i just sent them all away
i just sent them all away
if i could just, just get away

i need shelter
i need shelter....
from you,
keep me outside your eyes

i locked myself up from this pain
cuz you would always let the earth divide
everything we hold inside
i'm never doing this again
i'd give it all tonight
one word, could have my life

Repeat Chorus
