Lost course
on the summer sun.
By his pride,
I was fearless too long inside
to hide.
So goodbye, so goodbye.

All life turns to words.
But just the sounds.
All the names are changed around.

She cares,
(straight from the radio right to your mouth)
she cares,
(started special time, lost all control of it)
she cares.
(so far from everyone, too far from all of it.
gone is all concern)

I must begin.
Set in a course
away.

Chorus:

So then, why do you fall down?
All those wrecks you so-call sounds?
From these things that I saw for days
and it's here in song, always.

Down on yourself once again.
Where have you been?
The form is up and it takes you out.

Away,
(straight from the radio right to your mouth)
away,
(started special time, lost all control of it)
away.
(so far from everyone, so far from all of it.
gone is all concern)

I must begin.
Set in a course
away.

Repeat chorus.

For always, for always.
For always, for always.
