

Remiain "Grow"

Visit "[Grow](#)" on MotoLyrics.com

I took the long drive home; I took the long drive home
today
And I thought about all the things and all the stars I see
What are the important the things? The things that
matter to me
Is it the day I see? Or the life I lead?

I went down the street I went so much further
I took a look around our moments are getting longer
Our pictures will stay the same, but we're getting so
much older
There has got to be another way to live, something
better

This way of life is all we know
What we've been taught since we were kids
Spread the seeds so we can grow
There has got to be another way to live

I remember a time when there was oh so much
There is nothing now just a meaningless touch
Our pictures will stay the same, but we're getting so
much older
There has got to be another way to live, something
better

This way of life is all we know
What we've been taught since we were kids
Spread the seeds so we can grow
There has got to be another way to live
