Do you feel that something strange about us
In every moment that I look in your eyes
I want to tell that you ate my shining star
But I can't say because there's something that I left
behind

Do you know It's so slow
I'm almost cannot sleep at night
I know that I'm falling for you how can I lie

Have you wonder why almost feel sick
It's because you got me here
Have you wonder what I'm gonna keep
I've must confessed even you are my only dream baby

Could I take you in the galaxy
We wil travel the peacefully romantically
You're so special for whom I really treat you right
Somebody tells me tha you already give a sign
