"My Geisha"

Visit "[My Geisha](#)" on MotoLyrics.com

Everytime I've looked at the sky
I saw your face hanging over me
I can't forget our sweetest moments
Oh, lullaby drive me once again

When you came to my life
Everything is always fine
Imagine our universe
A gorgeous kind of a galaxy
Take me Take me
Take me to your world tonight

Bring back to me all those precious memories
The only thing to be with you
When I closed my eyes and dream
Come back to me and feel my heartbeat
The only way to be with you
When I closed my eyes and see you and my dreams

Always think that you are here
I cannot hide this strange kind of feeling
You smiled so bright then you hug me baby
I want to tell you please come back again

If ever can I hold you tight
Then I will never get back to my reality
Unless I can tell you honesty
Deep inside in my heart
I love you I love You
Please believe me don't go
