You're look so very elegant
You're like a kind of wonder
baby who you are

You smile so bright
It takes for free
You make us crazy
angel who you are

I'll listen to your heart
I don't hesitate to takes this change for me
I'll make it to the start
I'll turn to you to chaze this fantasy

We'll stand out shout loud
In your power like sunshine
We'll look around just bound
To your gentle precious smile
I see the sign of the new beginning
I'll take the start I said who you are

You're the girl from magazine
You're so gorgeous like a maniquen
You make my day so perfect and free
Angel please tell me now
and please don't fall apart
