Woke up and I got the feeling
Nobody's gonna make it easy
Left out when I wanna be inside
As it's all goin' down

Your love is enough to feed me
Held up for another evening
Lord knows I could use the freedom
For waiting around when I need you

Who are we to fall to pieces baby
Worked so hard to see things through (see it through,
see it through)
Who are we to question each other mama
I know what it takes to make it right for you

It's the way I feel (repeat 4 times)

This life there's no surprises
So good well I can't defy it
So true that I wanna try it
All without making a sound

Hooked up in a situation
I'm down with the invitation
New love and a revelation
For keeping my head to ground

Who are we to fall to pieces baby
Worked so hard to see things through (see it through,
see it through)
Who are we to question each other mama
I know what it takes to make it right for you

It's the way I feel (repeat 4 times)

Here I come, here I come (repeat)

It's the way I feel (repeat 8 times)
