What a blast. Blowing it so fast.  
But you always said that it couldn't last.  
Now here we are, living in my car.  
Scored a last hurrah from your hocked  
guitar

But I want you, just the way you are.  
Love you in the back seat of the car.  
I will take you playing covers in a bar, I've  
found my fallen,

Star, star, star

Where do ya go, when nobody wants to  
know?  
Well they always said you could steal the  
show  
Sinking slow, in a friendly undertow,  
and it's always the sharks to be first to  
go, oh, oh, oh

But I want you, just the way you are,  
Love you in the back seat of the car,  
I will take you playing covers in a bar, I've  
found my fallen,

Star, star, star

Broken dishes, caught me kisses,  
You fall, I fell. Caught my angel.

Fallen star, I caught a fallen star,  
Fallen star, caught my fallen star
