

Renderfly "Making It"

Visit "[Making It](#)" on MotoLyrics.com

Life is good, life is grand (oh, oh, oh)
And once in a while, I understand
So let the song dictate away, (put it in
Your hand)
Happiness live for today...
Making it in a tent at a festival
Home to yours to meet Mom and Dad
I never meant to make them mad
I kinda hoped to make their day, (you know
It sure made mine)
When I heard myself say...
We made it in the tent at the festival
And now the years have come and gone,
And still it seems our favourite song
Reminding us of a special time (lost in
Afterglow)
When me and your Mom were looking fine...
You were conceived in a tent at a festival
