Presented, sweet, rose, and brand-marked clean. A
tasty
Melting emptiness of finest protein.
Setting aside the smell of liberation.
Swallow this question down, make it unseen!
Waiting for tomorrow.
Don't question, swallow it now!
Don't question, follow me now into ecologic channels
Easily zapped away.
A broken promis, a simple betray.
My thoughts are getting suspicious, spinning around
the
Core.
I'm sitting on my mission like parzival before.
We're gritting on tradition, crying out for more.
What a great step forward, haunting templates for the
Price!
Consumption interacts with this collective mind.
Collection complete, a billion things of need.
A billion willing minds to stay in shape.
Taste and feel the satisfaction sold 100% real.
Pure sickness and cure.
Swallow!
Contradictory!
My thoughts are getting suspicious, spinning round the
Core.
I'm sitting on my mossion like the industry before.
We're gritting on tradition, crying out for more
Alternatives are waiting for me.
Waiting for reputation based on theories.
Reproduction of a trademark.
Reselling pedigree.
This is the argument I wait for.
