"Go"

You're about to leave him now
Heard it all before
Suppose me to believe it now

Go while you can
Go while you can

Stay a while he's sleepin' now
I thought you would
Don't seem to feel it now
You've been doin' okay

Go while you can
Go while you can

Stay and close your eyes
Stay with me
Stay and close your eyes
Stay with me

I said go, go
Go and take that thing on
Go, go

Go, go while you can
Go while you can
