Background: Things you see in a graveyard...

Things you see in a graveyard...

Rotti: Maggots, vermin...

You want the world for nothing.

Commence your groveling...

Rotti, your king, is dying.

Even Rotti Largo

Cannot prevent this passing.

Who will inherit GeneCo?

I'll keep those vultures guessing... (Things you see in a graveyard)

I'll keep those vultures guessing... (Things you see in a graveyard)

I'll keep those vultures guessing!

Ashes, dust... (Ashes! Dust!)

My children were a bust.

They shall inherit nothing.

No... no...

My legacy is too great

To throw away on ingrates.

Nathan Wallace had potential,

Until he stole my Marni away!

In denial, Nathan blamed himself for Marni's sudden death,

But never once thought to suspects the man who writes his checks!

I guess... I'll take it to my death! (Things you see in a graveyard)

I'll take it... to... my... death.

Marni, it's Rotti.

You never should have left me.

I would have given you the world...

It's been difficult to see you after what you put me through

You've forced my hand and made me to--

Well... It looks like I'll be joining you.

It seems the man who cured the globe cannot stop his own extinction...

But I can go out with a bang!
