

Reptilian "The Deceiver"

Visit "[The Deceiver](#)" on MotoLyrics.com

I breake the silence with another soul decay i'm always
there when you're
Going insane

And when you're looking in the mirror you'll be staring
in my face

You better know what i can do if you belive i'll take you
crazy and i will
Never leave

And when you try to get away, i will come back yo you
to haunt you once
Again

Hear no evil, the begining of the end of the end see no
evi, if you think
I'm not your friend speak no eil, because you can not
deny the deceiver,
Inside your mind

I am inside you now wherever you may go and you can
feel your insanity
Grow

And if you try to use your head, i will return again to
repossess your
Soul
