I've gone to dark places travelled to hell and back  
breathing fire always  
Through bleeding eyes watching the flow of pain  
endless misery

Riding the vortex of agony and fear pain is the key  
when you're into the  
Veins of hell

Walking the path of the already long lost souls a journey  
of doo through  
The landscape the sea of blood

[chorus]

The final destination is unknown to me walk forever  
inside the maze i am  
Lost in the pits of hell trapped inside myself

[chorus]
