Denounced myself from the god of the light  
Drank the blood of eternal life and darkness might  
Serving him with cloven hooves thus I infest  
Demands of his infernal majesties request

After midnight I excel poisoned by the lye of hell - rise  
again to bathe in crust dwelling in perverted lust the  
likes of me are taking over rage across the land beastly  
ones are in command...  
And hungry are the damned  
Nosferatu inside of you - Nosferatu inside of you and  
me

Bloodlust drives me to kill again  
You all will die from the terror of my reign Discarded  
corpses dried of life left as trace  
Behold my fangs as they sink into your fucking face

After midnight I excel poisoned by the lye of hell - rise  
again to bathe in crust dwelling in perverted lust - the  
likes of me are taking over rage across the land -  
beastly ones are in command...

Up from a shallow grave clotted blood is what I crave  
An apex predator always hungry for more, slit your  
throat and you'll see  
Reborn in morbidity... just like me  
Ghastly proceeds the funeral procession  
What once was hidden is now at hand vastly exceeds  
the global recession-  
We're all smitten so we are the damned

Nosferatu inside of you - Nosferatu inside of you and  
me  
After midnight I excel poisoned by the lye of hell - rise  
again to bathe in crust dwelling in perverted lust - the  
likes of me are taking over rage across the land -  
beastly ones are in command...  
And hungry are the damned
