I have come from burning, through freezing seed  
Through ejaculation fires, born as infamous breed  
Votary of the precipice divinity, defiling the heavenly  
sterility  
Baptized in blood from being born in blasphemy  
eternal darkness inside of me

Spawn of pure malevolence - Spawn of pure  
malevolence -  
Spawn of pure malevolence - Spawn of pure  
malevolence

Viewing the world from a far distant tomb, aiming as  
the gate through the womb  
Chosen bodies appear so vicious, my rabid fury  
unearthly malicious  
Consuming your veins, molesting internally your body  
into excruciating pains  
Putting you into maggot lave, underneath the cenotaph  
Tormenting you beyond the grave

Spawn of pure malevolence - Spawn of pure  
malevolence -  
Spawn of pure malevolence - Spawn of pure  
malevolence
