Rotten unearthed corpse - Soldier of the dead
Zombie life from hell - Eyes see only red
Damned to walk the earth - No more room in hell
Come out of your grave - Search for human prey

Find a lonely girl - Walking in the park
Bite her fucking throat - Tear the flesh apart
Rip out all her guts - Eat the putrid shit

Feast of fucking gore - blood drips from your lips

The feast is almost done - Bones are all that's left
This lonely little girl has met her tragic death
Maggots start to spawn - Rise again to kill
Nocturnal living corpse - Rised by Satan's will
