(my style is the best)

when facing your enemy you have to aim for his
weakest point,
use the buddha finger accurately,
and you'll find you will win,
what ever he should try to do,

that's right,

my stlye is the best, and so i challenge you,
and my style should stand alone (hahaha),

that's right,

the buddha finger

your losing your touch, you've gone soft,
i challenge you,
i can beat you,
you've lost your touch haven't you,

the buddha finger

stop movin boy, come show your strength,

just shut up,

thats right

(hahahaha)

you think your tough,
well your not,
your chicken,
oh, is that so, you wanna prove it to me
