

Daniel Kirkley "Make It Beautiful"

Visit "[Make It Beautiful](#)" on MotoLyrics.com

Careless words are spoken
Families fall apart
Nothing gets more broken
Than a Mother's heart
She cannot sleep, can hardly breathe
With out a moment of wondering
How this all will end
God please let it end
Hurt if falling from her eyes
As she cries

Chorus
Come and make it beautiful
Let it all be usable
I still believe in miracles
And that you can use everything
So Father use even this
Make it beautiful
Standing in a new day
In the wonder of grace
Still there's so much he wishes
That he could erase
That wasted years and all the shame
More regrets than he could name
From a battle he has waged
That still goes on today
But with confidence
And with faith he prays

Chorus

You promised that all things
All things would work together for my good
All things, All things
My Redeemer will you (come)...
