The world keeps on turning
And it seems so many things go wrong
Got to believe in
Something that makes us strong

Love is the powa, so don't you forget it
Hold me like a torch wherever you have it
Let it be known that you got it inside
Let it show, let the light of love shine so bright
Through our lust it goes cross the border
Shine so bright in the darkest corner
Day and night and in the morning hour
Don't you forget that love is the powa!

Love is the powa
Don't forget it, don't forget it
Love is the powa
Don't you get it, don't you get it
Come on

The world keeps on turning
And it seems so many things go wrong
Got to believe in
Something that makes us strong

Live for love or run with the gun
Put it back, you gotta choose which one
Doing it ain't easy you gotta see me
Open world up L.O.V.E.
Feel the hype beat, the rhythm is right
Bring your dark side into the light
Day and night and in the morning hour
Don't you forget that love is the powa!

Love is the powa
Don't forget it, don't forget it
Love is the powa
Don't you get it, don't you get it

Love is the powa
Don't forget it, don't forget it

Love is the powa
Don't you get it, don't you get it

You gotta believe

Love is the powa, Love is the powa
Love is the powa, Love is the powa
Love, yeah

Love is the powa, Love is the powa
Love, yeah

Love is the powa
Don't forget it, don't forget it
Love is the powa
Don't you get it, don't you get it
Come on

Love is the powa
Don't forget it, don't forget it
Love is the powa
Don't you get it, don't you get it
