I thought we had it so good so true
thought we can really make it
in the beginning ooh it was all right
and after while even better, you remember

Time went by how happy we were
tears in my eyes show what is left today
memories of you and me take the best of me

Then we lost balance everything changed
time was no healer
the love that we used to have so great so true
had turned out to be a bad dream

Time passes on and I stand alone
tears in my eyes I wish I had know
memories of you and me take the best of me

Princess I'll always love you
my princess I always will
princess I'll always
princess I'll always be in love with you
princess I'll always miss you
wonder if you miss me too
princess I'll always
princess I'll always remember you

Deep in my soul it all seems so stange
how quickly our love could change
today is my birthday no letter no card
I pray that is's not a sign

Years wnt by you never forgot
the time has come for me to find out
your memory is the only thing
that is left for me

Princess I'll always love you
my princess I always will
princess I'll always
princess I'll always be in love with you

princess I'll always miss you
wonder if you miss me too
princess I'll always
princess I'll always remember you

Princess I'll always love you
my princess I always will
princess I'll always
princess I'll always be in love with you
princess I'll always miss you
wonder if you miss me too
princess I'll always
princess I'll always
princess I'll always
princess I'll always remember you
