Visit "[The Last Sun](#)" on MotoLyrics.com

Accept every horror here,
Glorify every joy and victory
The last thing you'll see in this ground,
Beyond good and evil is the last sun
This is the only world
This is the only sun

Touch your body, here you are!
Bigots and prelates
Despisers of body, opposer of their own god
This is the only world
This is the only sun

Desperate, Envious.
Full of hate against what they are not
Unsuccessful, Decadents.
Full of hate against what they are not
Control mother fuckers
Control mother fuckers

Desperate, Envious.
Full of hate against what they are not
Unsuccessful, Decadents.
Full of hate against what they are not
Control mother fuckers
Control mother fuckers
