"Smell Of Blood"

God stands before me
Thorns crown his head
Sinners bare witness
Profit will soon be dead
Crying out god's abandoned son
Stands alone to miss the rising sun
Son of god dies without sin
Reach out, last call for hell
Torn flesh see your lord now
Satan yearns the smell of blood
Blood, blood fills the ground
God dies Satan rules the land
Sinners yearns the smell of blood
Reach out, last call for hell
Torn flesh see your lord now
Satan yearns the smell of blood
Torture chamber
Torture chamber, tests your will to live
Die by nature, this time you must give

Tare my hand, feel my pain
Torture chamber kills again
Your empty soul, fate of time
Torture chamber will survive
Your time has come, you wait for the dawn
You've sealed your fate, defied by human race
Torment, the cry of death
You stand, alone, tuere's nothing left
Your world, is torn apart
Your sorrird life, reaches out
Sorrow, destroying the mind
Mourn the sins, feel the cries
Denial, immortal sin
Your mortal heart, explodes within
Torture chamber, tests your will to live
Die by nature, this time you must give
