Black as coal your heart  
Dies and ripe apart  
Kill yourself, your mind  
All in vain mankind  
Die, rise, shatter.  
Existence denied, test of fate  
Take my life, I'd rather die  
To live again free from sin  
Stick a knife into my heart  
Sacrifice, my new life starts  
Burden of evil - lies, within the mind

Sorrow a test of fate  
Black as coal your heart  
Dies and rips apart  
Kill yourself, your mind  
All in vain mankind  
Die, rise, shatter.  
Take my life, I'd rather die  
To live again free from sin  
Sacrifice, my new life starts  
Existence denied, test of fate
