Yesterday you and me and the other people had a party

But who could know it was the last time

We got drunk and sang together

Chasing girls you should've lived forever

You didn't even get home

Chorus:

Bye Bye Johnny bye bye

It's not your fault that you died

But i can't help it

I got to ask a reason why you

Good o'l Johnny did die no one knows

So many of your friends cry

There's no meaning why you should say bye bye

Now today when you are gone

I'm still drunk but i can't find a reason

Why you have to leave so soon

Guess that's how it had to be

Raise in heaven living free

Can't you come back to us please

Chorus

You were stabbed

In the back

In a downtown backstreet alley

You played for passion lived your life

Now you're hiding in the fearway

Chorus

Chorus
