

Return To Arms "Take Your Time"

Visit "[Take Your Time](#)" on MotoLyrics.com

Is is safe to say this themes a bit redundant but I
Oh oh this just in you see its
Kinda hard to wear things out when you bite your
tongue and shuts your mouth
I'm down and out and out of this town

To where we started from
Its time to get this done
Another night is gone

Oh take your time but don't take mine
(This gets old and you know your always right)

Is it safe to stop breathing when I'm so excited?
Your jaws dropped and this time I'm to blame and
I find it hard to walk around my head up high my
shoulders down
Around its never stopping

I won't let you get me wrong
