I'm going all out on this one  
To make the awkward silence gone  
And I am all right for right now  
Just getting back to where I started from

Ill cut you off ill cut you just to set you in  
Ill take you up on that suggestion  
So get in and take a ride ill take you home  
Just for tonight x2

We never knew what we were getting  
Ourselves into from setting ourselves  
Apart from everyone else

I think its safe to take this in and take this down  
We'll make it out

Because this is for you and I've held onto you  
And this is for every hand that I have held onto

Will this ever work I don't know  
It won't at first because I can't think straight
