well yes, you are contented  
what more could you want?  
yeah, you fight, but you always make it up  
it's love chasing it's tail

look at how she holds his hand  
and she whispers to him kiss her now  
and when she pulls away  
she's got his heart dangling from her mouth  
phonecalls and accusations  
and a bad feeling all year round  
gutless and co-ependant  
they're the best enemies in town

the best enemies in town  
the best enemies in town  
in town  
oh yeah

the silence, you hate it  
hearts should come armour plated  
violinsm they play for  
you and me and for her  
with clear minds and wide eyes  
we make the best decisions

so  
just let it go

so now the tears come easily  
and she promises to change her ways  
but its not about what you do, it is,  
who you are that matters these days

after months of rehearsals and bad excuses  
the moment to leave is now  
so death to contentedness  
you were the best enemies in town

the best enemies in town  
the best enemies in town

the best enemies in town  
here's to the  
best enemies in town  
town

well  
where will i find love now?  
who will accept me now?  
they all cried for chairman mao  
they all cried for chairman mao
