I need love over shame
I need peace over hate
You're the bridge that restores us

Glorious is your name Lord
You alone are the light that shines
Create new life in us

Let these wars I have seen
All surrender to your peace
You're the freedom within us

Glorious is your name Lord
You alone are the light that shines
Create new life in us

Create new life in us

Glorious is your name Lord
You alone are the light that shines

Glorious is your name Lord
You alone are the light that shines

Create new life in us
