I spent my life in search for you  
Not knowing what to find  
Still wonder how did I pull through  
Without you on my mind

Friends tell me you're no good for me  
I'll show them all they're wrong  
'Cause you are everything to me  
It never felt so strong

Without you Nothing can turn out right  
I lie awake all night  
Without you I keep calling your name  
My life can never be the same

You are a miracle to me  
Your face I can't forget (face i can't forget)  
I just feel we're bound to be  
From the moment that we met

I've been waiting for someone like you  
Now you've come my way  
Sometimes I can't believe it's true  
I hope you're here to stay

Without you Nothing can turn out right  
I lie awake all night  
Without you I keep calling your name  
My life can never be the same

(bridge)  
Listen to thies heart of mijne  
It's filled with dear desire  
For you're the kind I tried so long to find  
You set my soul on fire

Without you Nothing can turn out right  
I lie awake all night  
Without you I keep calling your name  
My life can never be the same
