Everything my heart desires is here
Everytime I pray, I pray for you
Everything my heart requires is here, is here

The sad show at the carnival was my pleasure before
you
Riding round on the merry-go-round, it's cool but so
cold
This time, this time I will kill the [Incomprehensible]

'Cause everything my heart desires is here
Everytime I pray, I pray for you
Everything my heart requires is here, is here

Some wave's gettin' me and I couldn't get myself
My broken skin it covered in bad itches of cold

Oh, heartbreak, hold till it's finally burnin' down

'Cause everything my heart desires is here
Everything my heart could want is here
Everything my heart requires is here, is here with you

Oh, heartbreak hold till it's finally burnin' down

'Cause everything my heart desires is here
Everytime I pray, I pray for you
Everything my heart requires is here, is here

Everything my heart desires is here
Everytime I pray, I pray for you
Everything my heart requires is here
Is here with you, with you
