I'm guess I'm not too good at keeping love alive for
long
I think I've found the answers but the answer's always
wrong
My first love was my true love and it should have been
my last
The only time I'm happy is when I'm dreaming in the
past

Next time you fall in love, it better be with me, the way
it used to be
Back then was when we touched the starlight

Sometimes you turn away from what your heart tells
you is right
And so you settle for whatever gets you through the
night
The flame you thought was dead may suddenly begin
to burn
And broken hearts can be repaired, that's something
that you learn

Next time you fall in love, it better be with me, the way
it used to be
Back then was when we touched the starlight

I've relived every moment that I've ever shared with
you
What fools we were, to end a dream that looked like
coming true

Next time you fall in love, it better be with me, the way
it used to be
Back then was when we touched the starlight

Next time you fall in love, it better be with me, the way
it used to be
Back then was when we touched the starlight

I guess I'm not too good at keeping love alive for long
I think I've found the answers but the answer's always
wrong

My first love was my true love and it should have been
my last
The only time I'm happy is when I'm dreaming in the
past

Next time you fall in love, it better be with me, the way
it used to be
Back then was when we touched the starlight
Next time you fall in love, it better be with me, the way
it used to be
Back then was when we touched the starlight
