"Warts N All"

Your profile pic divided by four equals your actual
fitness
And what's more it's visual fraud if ya trade on a false
description
No amount of snaps with your fit mate,
When your mate looks shit and you look great cold fool
us
Are, you showing me ya good side?
Cause I'd rather see you warts and all my love... ,
Your trout pout is bound to come out
When your posing for your pictures,
You best hope that the wind don't change
You'll be left with a strange affliction
No amount of snaps with your fit mate,
Or "check me out" status updates could fool us
Are, you showing me ya good side?
I wanna see you looking rough
Are you showing me ya good side
Cause I'd rather see you warts and all my love.
I wish that we could be, far across the sea,
On a desert island in the sun,
And you'd have nothing to prove to anyone.
