It's a dark day outside in the yard
It's a cold day, but that's our reward
There's a girl, I see every day
Knows who I am, has nothing to say

And it's a dark day, for love
And it's a cool day, for pain
And it's an old day, for a young man
So calous and vane, but not insane
Well, maybe just a little hard

But it's just another dark day, outside in the yard
It's cold, bleeding and starved
But it's just another dark day, outside in the yard

And it's a dark day, for love

And it's a cool day, for pain
And it's an old day, for a young man
So calous and vane, but not insane
Though not very far

Just another dark day outside in the yard
Outside in the yard
Outside in the yard
Outside in the yard
