I can cover lots of ground in the octopus mode
the octopus mode, the octopus mode
I got the keys to the highway, the rules to the road
the octopus mode, the octopus mode

touch you here and touch you there
anywhere by the ocean rocks
I'll kiss you there by the docks
in the octopus mode

I got eight long arms and one big
in the octopus mode, the octopus mode
pretty little fish driving me insane
in the octopus mode, the octopus mode

blow in ear and suck on hair
sounds take care as the ocean breathes
many courts on the seven seas
in the octopus mode

excuse me baby can't control myself
in the octopus mode, the octopus mode
a cute thing like you by this ocean shelf
in the octopus mode, the octopus mode

merchant sailors legionnaires
sailors stare oh what a tease
many arms and many squeeze
in the octopus mode

I'm in the octopus mode
I'm in the octopus mode
