I maybe old
but I'm twice as bold
it in the atmosphere
it there it's here
say a pray for the weak
so they may strong
listen to the words, the words of this song

a revolution under foot
a revolution under foot
ain't gonna stay where we been put
a revolution under foot

if you think your rich cause you got it in the bank
baby money never covers up the smell that's rank
the pun thing to do has gotta be right
either lay down and whine or stand up and fight

a revolution under foot
a revolution under foot

ain't gonna stay where we been put
a revolution under foot

so since the world has dumped on us
stitch for stitch the quilted us
a blanket of soot for our city streets
our beat is bad with the pounding feet
oh yea

a revolution under foot
a revolution under foot
ain't gonna stay where we been put
a revolution under foot
