"Separation"

Visit "[Separation](#)" on MotoLyrics.com

What happened to the bond we had between us
Compelling us to live as one
You put your self above the higher calling
And brought dissension to us all

What once was strong
Has fallen down, we've fallen down
To right this wrong
We'll break this down, we can't back down

Where is our sense of love that gives us purpose
That drives us to our common goal
The walls we built to keep our faiths divided
Have turned our brothers into foes

This wall of separation
We've brought it on ourselves
Unite this generation
It's time to burn this down

It's time to burn this down!
