Second thoughts  
Involve my brain  
That reflects in the puddle  
After all I've reign  
If I could take it all back  
I could be broad and new  
If I could have a second chance  
I know just what I would do

Second thoughts  
Become to late  
Like shadows falling  
In the wake  
If I could take it all back  
I could be broad and new  
If I could have a second chance  
I know just what I would do

Yeah

I know what I would do

I know what I would do

Second thoughts haunt my brain  
Like graveyard ghosts rideing insane  
If I could take it all back  
I could be broad and new  
If I could have a second chance  
I know just what I would do

Second thoughts  
Become to late  
Like shadows falling  
In the wake

Second thoughts  
Second thoughts  
Second thoughts  
Second thoughts...
