"Let's Make A Memory"

Visit "[Let's Make A Memory](#)" on MotoLyrics.com

You and I will build a world of our own
Where we can run to
We will find what all true lovers have known
Will make our dreams come true
As we walk in this land
Heart and heart hand un hand, darling
Put your faith in me
Lets make a memory
You and I will have dream so long for tonight
for love to come around
hold on me and lay yourself by my side
will take away the doubts
after all said and done
memeories on the ran
darling
put your faith in me
Lets make a memory
Lets make a memory
Bright as the stars that shines above
Lets fill our cup with the wine of love
Just you and me
And memories of love
