and i dont know how i knew it
but i knew it somehow
your the answer to the questions
no one answered 'til now
and i dont know what you see
what you see in me
but girl it's nothing to
what i see in yo
** stars that glisten
lips for kissin
honey listen it's true
on one's ever loved you better
love you honey
and i've known a girl or two
and none of them was you
and they will never be
what you are to me
**
