I see you walking  
I see you talking  
Oh, With all of my friends  
I'm shadowed under, I'm like some thunder  
Oh I wanna be your friend

I wanna call ya  
I wanna ball ya all night long  
In winds of passion my whip is lashing  
I wanna get you and then

Oooo you're strange  
Don't lame me baby strange  
Don't lame me baby

The city's shaking  
I ain't faking Baby this is the end  
I'm overloaded my heads exploded  
I wanna get you and then
