Lean love

All you give to me

Is lean love

I'm like a beggar in the sand

With the sky in his hand

And I'm blue

Black day all you give to me

Are your wild ways

Well you're the love of my life

And then you gorge me with a knife

And I'm blue

Lightening

All the heavy world

Is frightening

I'm like a beggar in the sand

On the beach of the land of you

And I'm blue
