I could never understand
The wind at all
Was like a ball of love
I could never never see
The cosmic sea
Was like a bumble bee

And when I'm sad...
I slide.

I have never never kissed
A car before
It's like a door
I have always always
Grown my own before
All schools are strange

And when I'm sad...
I slide.

I have never never
Nailed a nose before
That's how the garden grows
I could never understand
The wind at all
Was like a ball of love

And when I'm sad...
I Slide
Watch now
I'm gonna slide
